

Central Electric
Membership Corporation

A Touchstone Energy® Cooperative 

Stay connected by utilizing member services

At Central Electric, our focus is not only on providing you with safe, reliable and affordable power, but also providing you with services to help you easily manage your account and take control of your energy use. Here are a few services available for you to take advantage of:

Mobile app. On the go and want to check your energy use or make a payment? Since our members are more mobile than ever, the cooperative has a variety of mobile services available to meet you right where you are, wherever you are. If you have not done so already, download our free mobile app by searching “Central EMC” in either the App Store or Android Market.

Alerts and reminders. Once you download the mobile app or visit the account portal at CEMCPower.com, make sure you check out the selection of account alerts and reminders available to you. Ranging from a high usage alert to due date and payment reminders, these notifications are meant to help you stay in touch with your account and usage.

FlexPay. Are you looking for ways to manage your energy costs? We may have the answer for you.

Much like the toolkit you have at home to help with home improvements, your cooperative also has a “toolkit” of services available to help you manage your account and take control of your energy use.

The co-op’s FlexPay program gives you the power to manage your payments and closely monitor your energy use. To learn more about the FlexPay program or to see about transferring an existing account onto FlexPay, [click here](#).
