

Fixing your water
heater shouldn't
require a shower.

You shouldn't get soaked on the price, either.

At Central Electric, our Water Heater Maintenance Program is like having a plumber standing by 24 hours a day, seven days a week. Instead of paying a huge hourly rate, you can sign up for our arrangement and pay only \$1.00 per month.

This small fee-added on to your electric bill each month-covers heating elements, pop-off valves, and thermostats, regardless of where you purchased your electric water heater, or how old it is. If you ever need to replace your water heater, we can also finance a new electric one for up to 24 months for those who qualify.

A \$50 credit to your power bill is available if the licensed plumber determines the element, thermostat or pop-off valve is the problem. A \$100 credit is available if the plumber determines the water heater needs to be replaced. Members can request service orders after being enrolled in the program for at least 90 days.

There has never been a more convenient or dependable way to ensure prompt service for your water heater. Simply return the attached card to our office and see how this small fee can save you a big expense. If you have any questions, please call (800) 446-7752.

Yes, I would like to participate in the Water Heater Maintenance program.
Please add \$1.00 to my monthly electric bill.
