

Heat Pump Water Heater Rebate

Money back on a smart investment.

Central Electric
Membership Corporation

A Touchstone Energy® Cooperative 

Eligibility:

- * You must receive electric service from Central Electric in the home where the heat pump water heater (HPWH) is installed.
- * The unit must have been newly installed in the 90 days preceding the application to be eligible for the \$200 rebate.

System requirements:

- * When replacing an existing unit, the old unit must not have an efficiency factor greater than .90.
- * Energy Star HPWHs 50 gallons or less are eligible for a rebate.
- * Member must submit proof of purchase (a copy of the sales receipt or invoice) and a copy of the yellow EnergyGuide along with application.
- * Installations must comply with all federal, state and local code requirements.
- * Qualified electric HPWH must replace an existing water heater in the same home and the old water heater must be disconnected and removed from the home.
